Mobi-Arm®

Versatile Mobile Articulating Arm Crane

The Mobi-Arm offers all the advantages of the Mobi-Crane line with the ability to add wide a range of end effectors and manipulators. The Mobi-Arm achieves its mobility with the use of a pallet jack allowing the crane to be placed where it is most useful. The articulating arm is available in 3m (10'), 2.5m (8'2") and 2m (6'8") lengths with a tower that is adjustable from 7'1" to 10'4" with 4" increments of adjustment in between.

Contact RonI, Inc. or your local dealer for application specific information. Custom Applications are available
